

LOCAL CYCLING NETWORK CONNECTIONS

PERTH, ONTARIO

AGENDA

- COMMUNITY AND LOCATION DESCRIPTION
 - EXISTING CYCLING NETWORKS
 - AREAS OF CONCERN FOR CYCLISTS
 - SURVEY DATA DIRECTING THE PROPOSED ENHANCEMENTS
 - CYCLIST CONNECTIONS TO BE ENHANCED
 - POTENTIAL IMPORTANT CORRIDORS FOR CYCLISTS
 - DESIGN CONSIDERATIONS
 - PROPOSED ENHANCEMENTS
 - CONSTRAINTS // PLANNING ADVICE
 - QUESTION TO START DISCUSSION

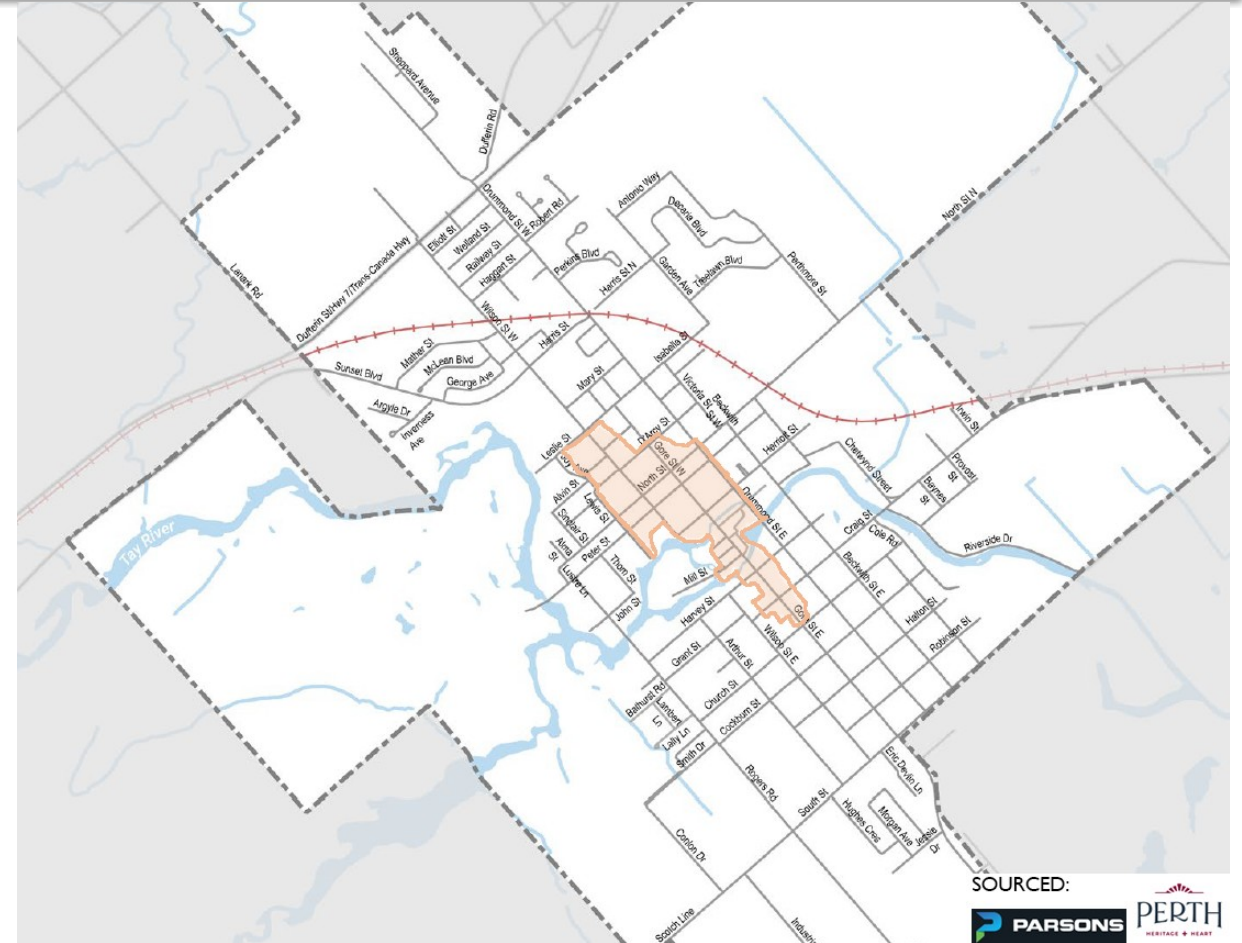

COMMUNITY + LOCATION DESCRIPTION

TOWN OF PERTH GENERAL FACTS:

- 12.25km² IN AREA
- 6,469 TOTAL POPULATION
- 529.8km² IN DENSITY

SCOPE OF PRESENTATION:

- DOWNTOWN PERTH CYCLING CONNECTIONS

EXISTING CYCLING NETWORKS

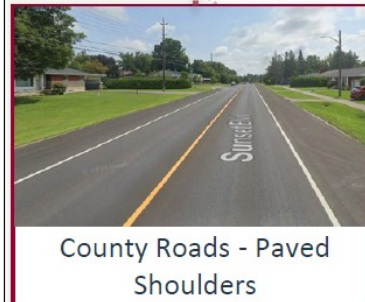

Legend

- Existing Bike Lane
- Trail
- Road with Paved Shoulder
- Multi-Use Pathway
- Parks & Open Space
- Highway Commercial
- Business Park
-  School
-  Hospital
-  Recreational Facility
-  Perth Golf Course
-  Public Library
-  Walking Trail
-  Community Centre
-  Perth Museum
-  Retirement Living
-  Perth Fair

Wilson St Bike Lane

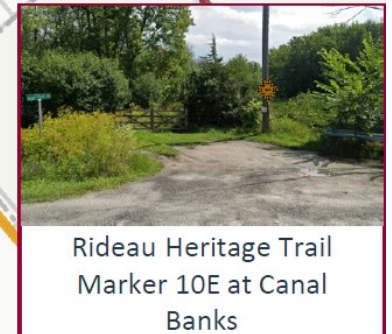

County Roads - Paved Shoulders

Dedicated cycling facilities are **isolated** and **disconnected**

SOURCED:
PARSONS **PERTH**
HERITAGE + HEART

Craig St Multi-Use Pathway

Rideau Heritage Trail
Marker 10E at Canal
Banks

AREAS OF SPECIFIC CONCERN

SPECIFIC SAFETY CONCERNS FOR THE FOLLOWING BRIDGES:

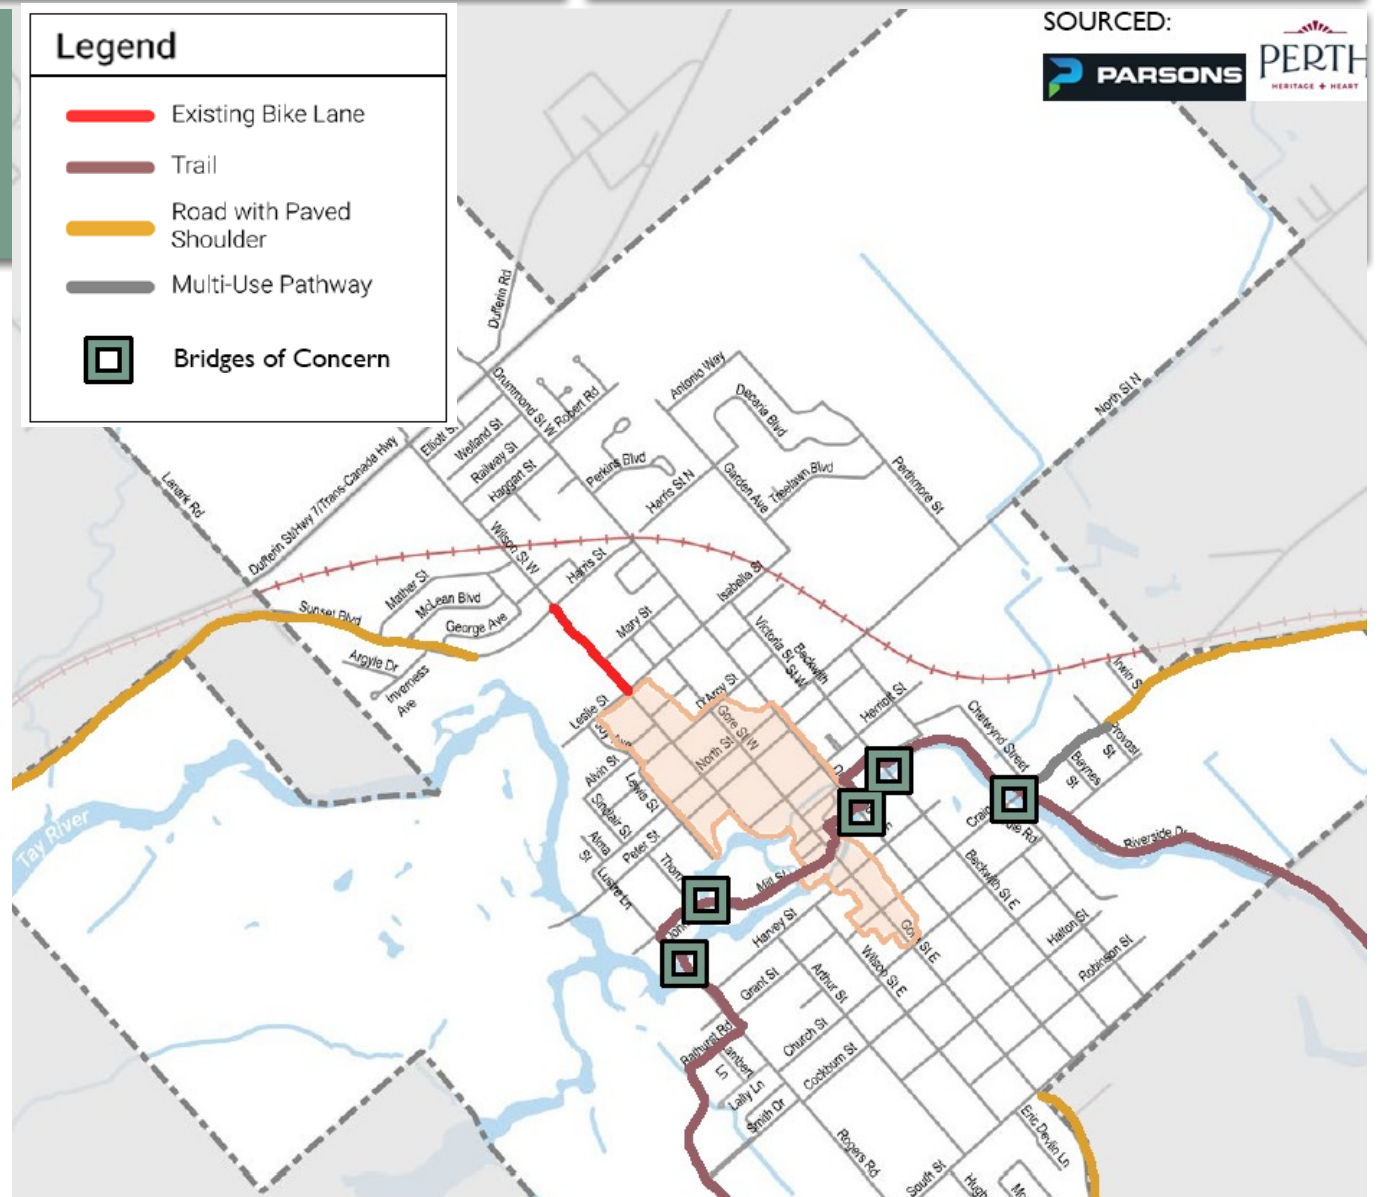

- BECKWITH STREET BRIDGE
- DRUMMOND STREET BRIDGE
- RAINBOW BRIDGE
- ROGERS ROAD BRIDGE
- CRAIG STREET BRIDGE

DRUMMOND STREET

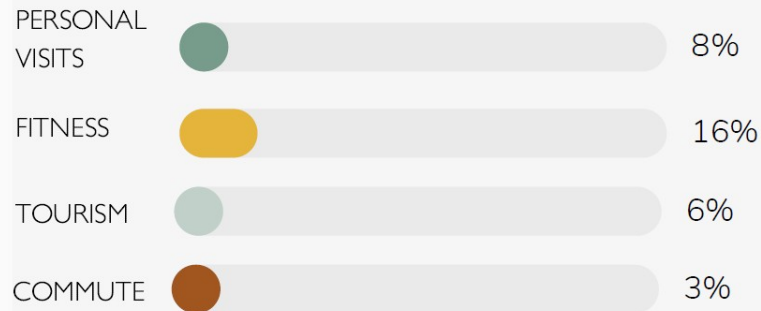

BECKWITH STREET

SURVEY DATA

HOW OFTEN DO YOU CYCLE FOR THE FOLLOWING REASONS?

Tourism

Any tourism related activities that include cycling

Fitness

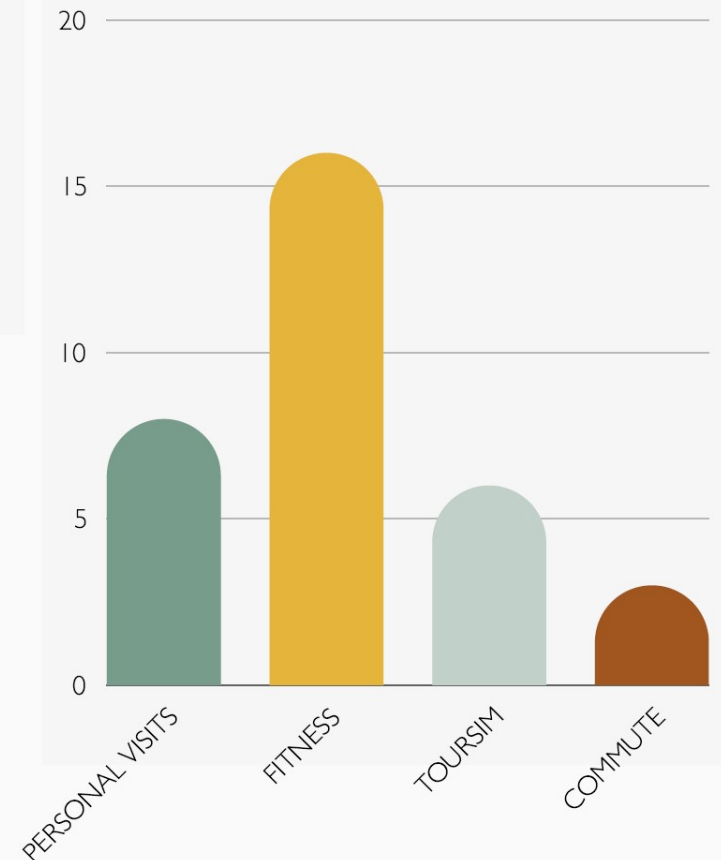

Cycling to stay healthy, for sport and recreation

Personal Visits

Shopping, errands, visiting friends and family.

Commute

How often do you cycle to work or

GENERAL FINDINGS:

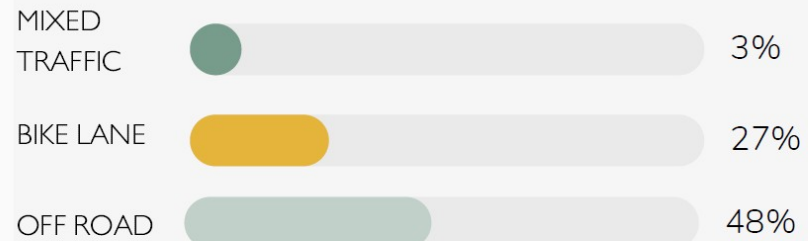

- ROUGHLY HALF OF RESPONDENTS ARE EITHER RETIRED OR DO NOT WORK.
- ROUGHLY HALF WERE SATISFIED WITH EXISTING TRAILS AND PATHWAYS.

SURVEY DATA

HOW COMFORTABLE ARE YOU CYCLING IN THE FOLLOWING CONTEXTS?

GENERAL FINDINGS:

- ROUGHLY HALF OF RESPONDENTS ARE EITHER RETIRED OR DO NOT WORK.
- ROUGHLY HALF WERE SATISFIED WITH EXISTING TRAILS AND PATHWAYS.

Mixed Traffic

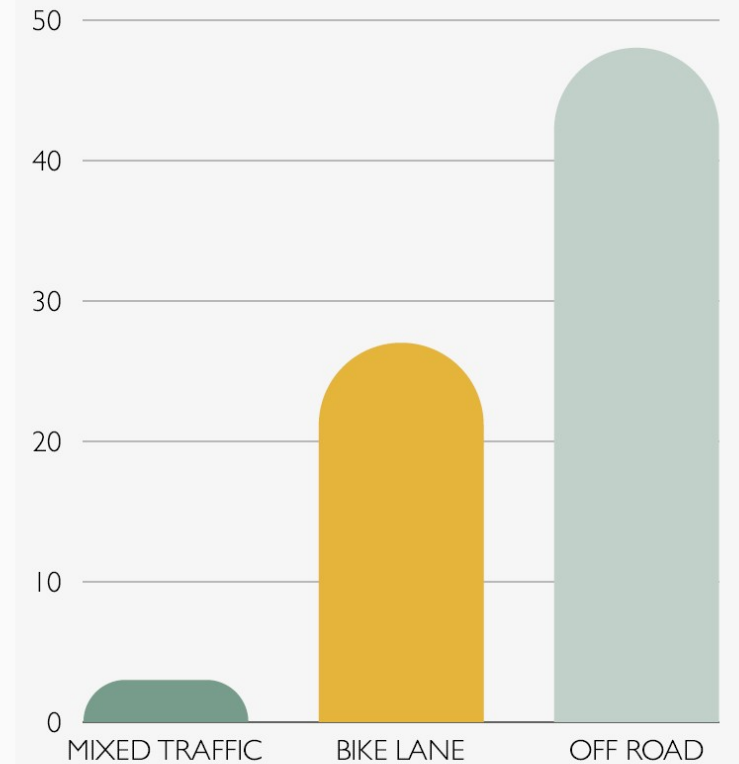

On road in mixed traffic, no bike lanes or paved shoulders

Bike Lane

On road in a bike lane or on a paved shoulder

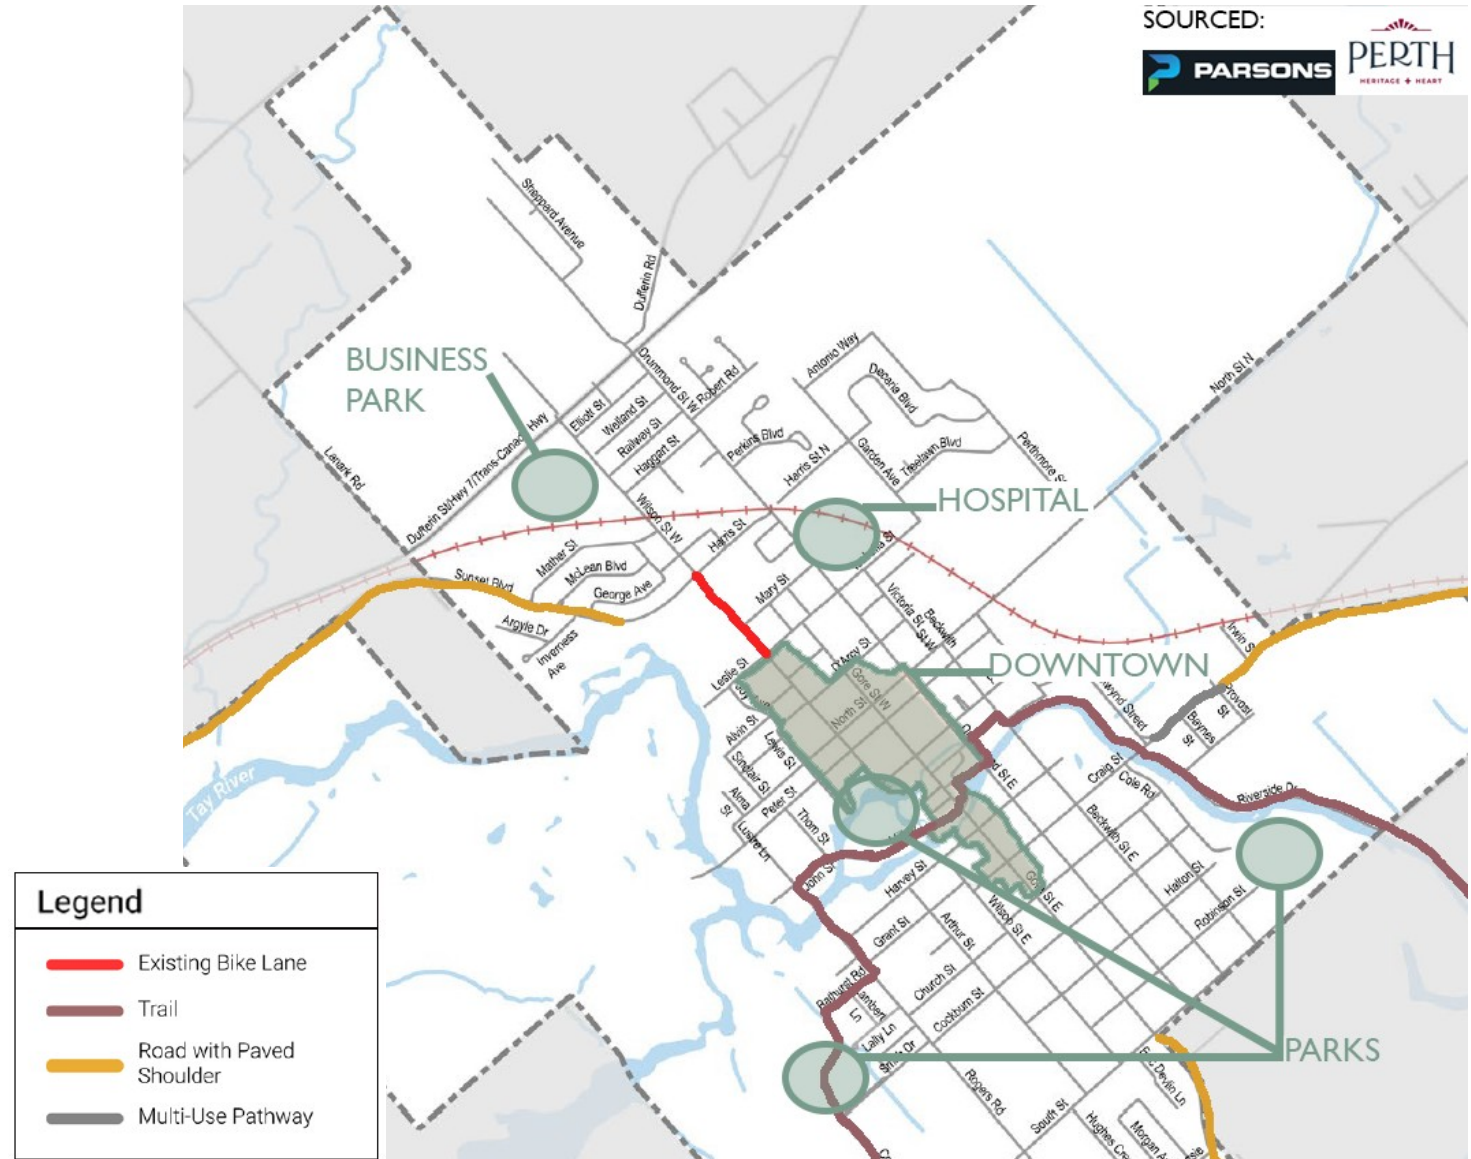

Off Road

On trails and/ or pathways

IMPORTANT CYCLIST CONNECTIONS TO THE COMMUNITY

- CONNECTIONS TO THE DOWNTOWN AREA
- CONNECTIONS BETWEEN PARKS
- CONNECTIONS TO THE BUSINESS PARK
- CONNECTIONS TO THE HOSPITAL

IMPORTANT CORRIDORS FOR CYCLISTS

SUNSET BLVD

WILSON ST

DRUMMOND ST

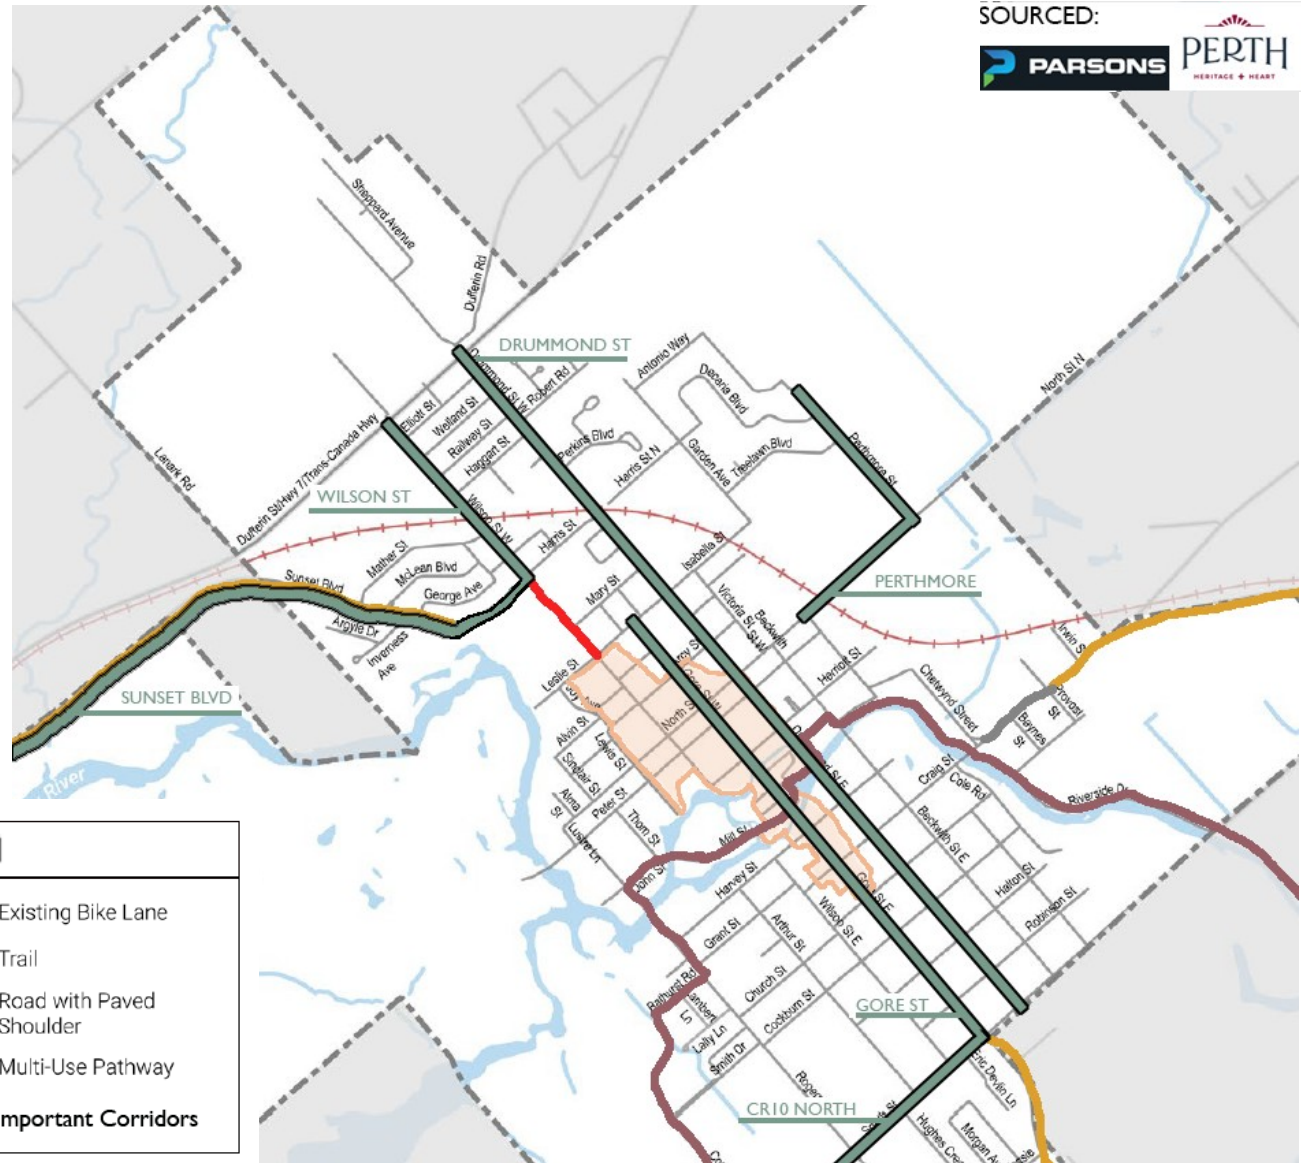

PERTHMORE

GORE ST

COUNTY ROAD 10

DESIGN CONSIDERATIONS

NEEDS:

- FOR SAFE AND CONNECTED CYCLING NETWORKS.
- GREATER CONSIDERATION FOR CYCLING INFRASTRUCTURE ALONG ARTERIAL ROADS.
- TO USE BEST PRACTICES FOR SPEED MANAGEMENT TO SUPPORT ACTIVE TRANSPORTATION OPTIONS.

OPPORTUNITIES:

- TO EDUCATE AND INCENTIVIZED RESIDENTS TO SUPPORT ACTIVE TRANSPORTATION AS AN OPTION FOR COMMUTING AND HEALTH MAINTENANCE.
- TO REDUCE GHG BY CREATING VIABLE ACTIVE TRANSPORTATION CONNECTIONS TO SERVE THE PUBLIC.
- TO PROVIDE SAFE AND EFFICIENT CYCLING NETWORKS TO DESIRABLE LOCATIONS.

DESIGN CONSIDERATIONS

SHARED LANES (SHARROWS)

POSITIVES

CHEAP AND EASY
KEEPS MOTORISTS
ALERT TO CYCLISTS
NEARBY
DISTINGUISHES
CONFLICT AREAS

NEGATIVES

HIGH RISK OF SAFETY
FOR CYCLISTS
NOT SUITABLE FOR
HIGH-SPEED OR
HIGH-VOLUME
ROADWAYS

PAVED SHOULDERS

POSITIVES

CHEAP AND EASY

NEGATIVES

POSSIBILITY OF
MIXED-USE SPACE
WITH PEDESTRIANS
UNCOMFORTABLE
WIDTH

BIKE LANES

POSITIVES

CHEAP AND EASY
BETTER SEPARATION
THAN OTHER ON
STREET OPTIONS

NEGATIVES

NOT SUITABLE FOR
HIGH-SPEED OR
HIGH-VOLUME
ROADWAYS

DESIGN CONSIDERATIONS

CYCLE TRACKS

POSITIVES

- SAFE FROM VEHICLES
- SUITABLE FOR HIGH SPEED CORRIDORS
- COMFORTABLE

NEGATIVES

- EXPENSIVE
- HIGH SPACE REQUIREMENTS
- DRIVEWAY INTERRUPTIONS

MULTI – USE PATHWAYS

POSITIVES

- SAFE FROM VEHICLES
- SUITABLE FOR HIGH SPEED CORRIDORS

NEGATIVES

- MIX OF USERS CAN BE CHALLENGING
- DRIVEWAY INTERRUPTIONS

TRAILS

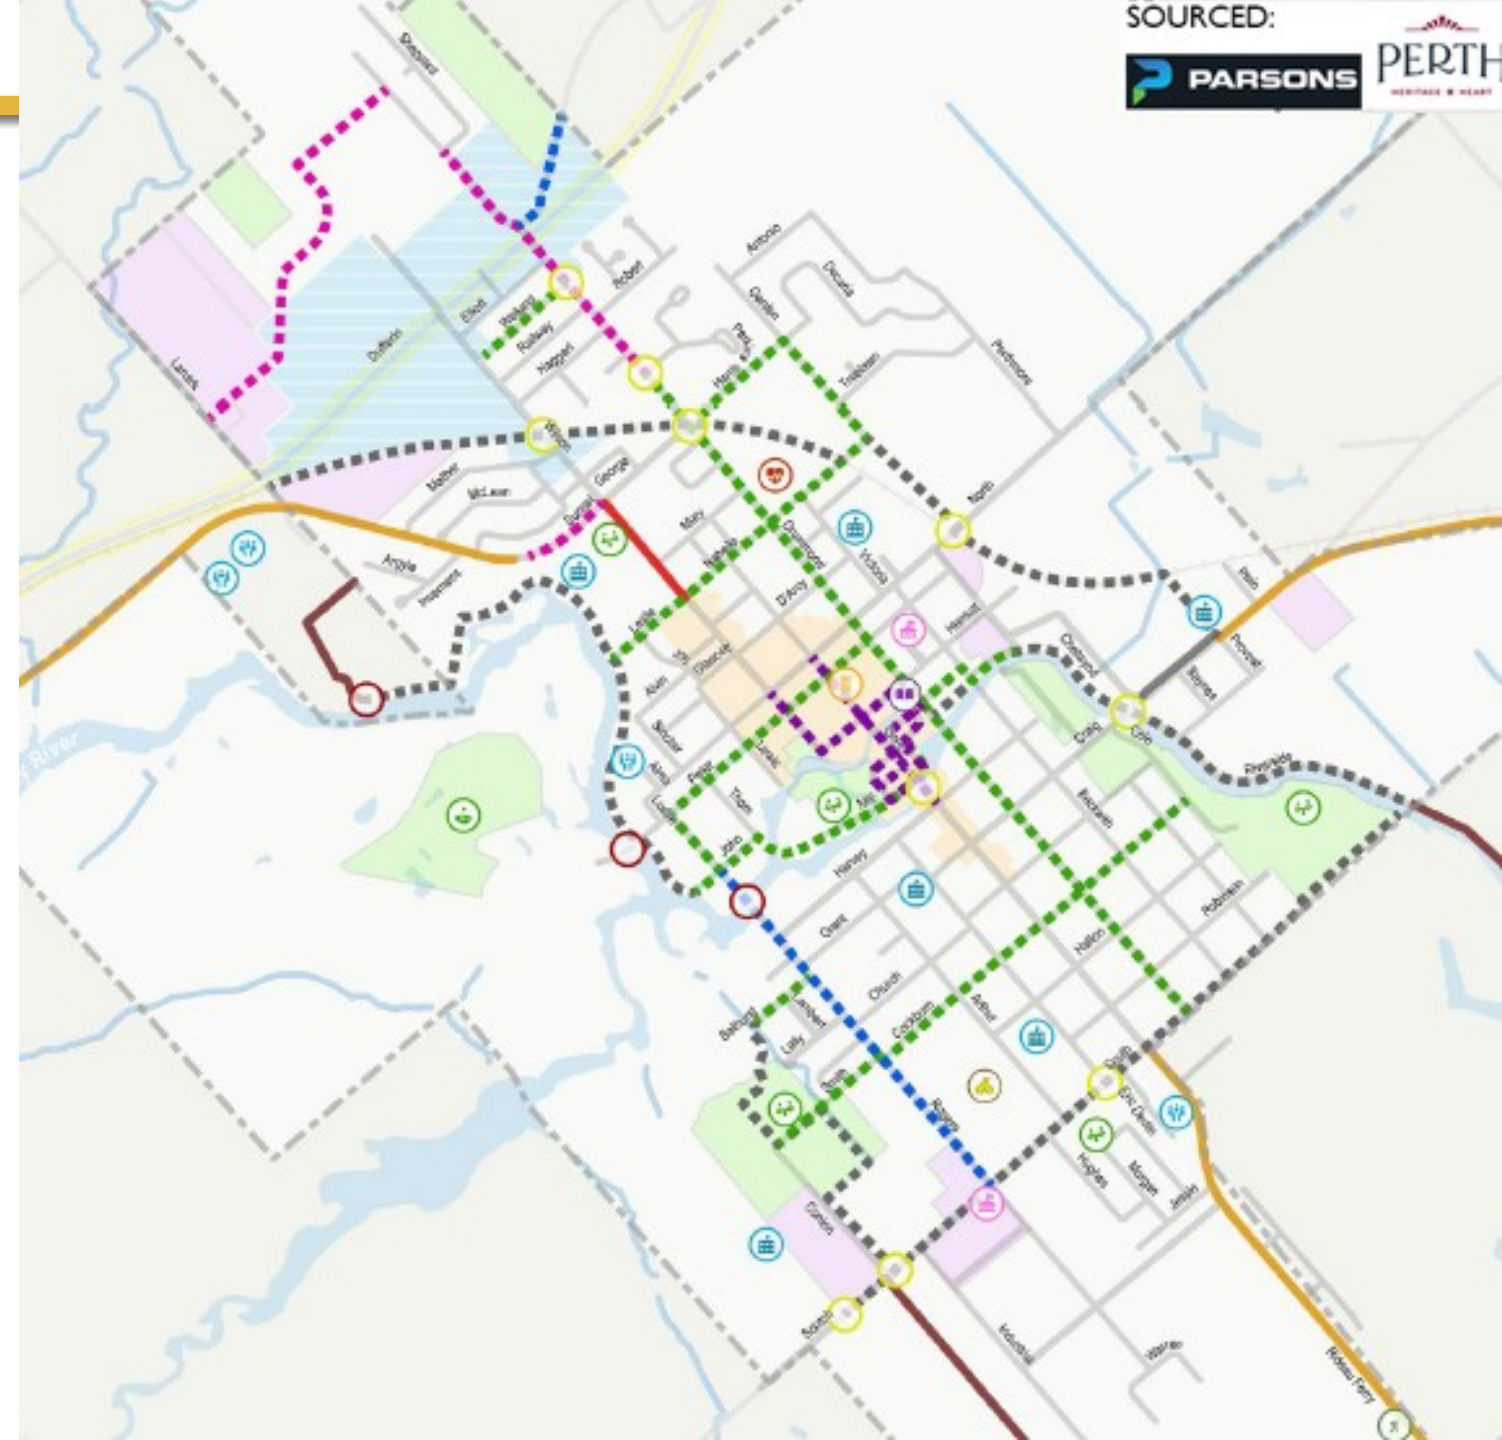

POSITIVES

- SAFE FROM VEHICLES
- CAN CREATE DIRECT CONNECTIONS

NEGATIVES

- MIX OF USERS CAN BE CHALLENGING

PROPOSED CYCLIST NETWORK ENHANCEMENTS

LIVING STREETS

STREETS DESIGNED TO BE SHARED SAFETY BY CYCLISTS, PEDESTRIANS, AND LOW SPEED MOTORIZED VEHICLES.

DESIGN ELEMENTS TYPICALLY PRESENT ON LIVING STREETS

- PERMEABLE PAVEMENT
- SIDEWALK PLANTING, SEATING AREAS AND OTHER LANDSCAPING
- ELIMINATION OF CONTINUOUS CURBS
- USE OF TRAFFIC CALMING MEASURES
- ON STREET PARKING

Challenges of Hwy 7:

- Connecting to the Meadows development at Drummond
- Connecting to HWY Business Centre at Wilson
- Connecting to County Road 511 cycling route

Alternatives:

- Unidirectional Bike Lanes on Drummond
- Refuge Island at Wilson Gateway
- CR511-Meadows Active Transportation Connection
- CPKC Rail Pathway

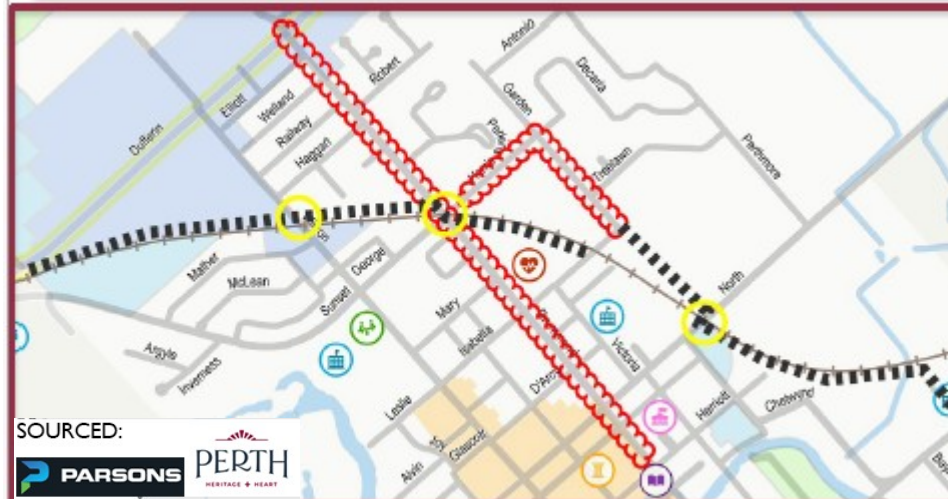

Challenges of the Perth Golf Course Development:

- Development currently under OLT appeal
- Peter Street Bridge not suitable for Active Transportation
- Lack of Active Transportation connection to County Road 6-Sunset Blvd/Tay River Pathway

Alternatives:

- Upgrade Peter Street Bridge to accommodate Active Transportation modes
- Provide second entry bridge to the north connecting to the Glen Tay, Maberley, and Harper-Balderson Cycling Routes, and completing the Tay River Pathway loop

Challenges of implementing the CPKC Rail Pathway:

- Limited Right-of-Way space along rail corridor for multi-use pathway
- High daily volume rail corridor
- Special crossing solutions required at Wilson, Drummond, and North

Alternatives:

- Drummond Corridor
- Garden-Harris Bypass

DESIGN CONSTRAINTS

PLANNING THOUGHTS + ADVICE

THOUGHTS:

- THE DATA COLLECTION AND COMMUNITY INPUT WERE DONE REALLY WELL.
- THE KEY OBJECTIVES OF NETWORK PLANNING WERE MET WITH THE PROPOSED ENHANCEMENTS.
- MULTIPLE FUNCTIONS OF A CYCLING NETWORK ARE PRESENT IN THE PROPOSED DESIGN NETWORK.
- THE DESIGN PRIORITIZES CONNECTIVITY, DIRECTNESS, FUTURE DEMAND, AND INNOVATION.

ADVICE:

- EDUCATION AND SIGNAGE WILL BE INTEGRAL TO ENSURING THE SAFETY OF CYCLISTS SHARING THE ROAD WITH MOTORIZED TRAFFIC.

THANK YOU FOR YOUR TIME

PLEASE CONSIDER THE FOLLOWING QUESTION TO BEGIN DISCUSSION

**ARE YOUR LOCAL CYCLING NETWORKS
IMPORTANT TO YOU?**

PLEASE SHARE YOUR OBSERVATIONS, IF THEY ARE
WELL CONNECTED OR IN NEED OF
ENHANCEMENTS.
