

Contextual Urban Design and Visual Analyses

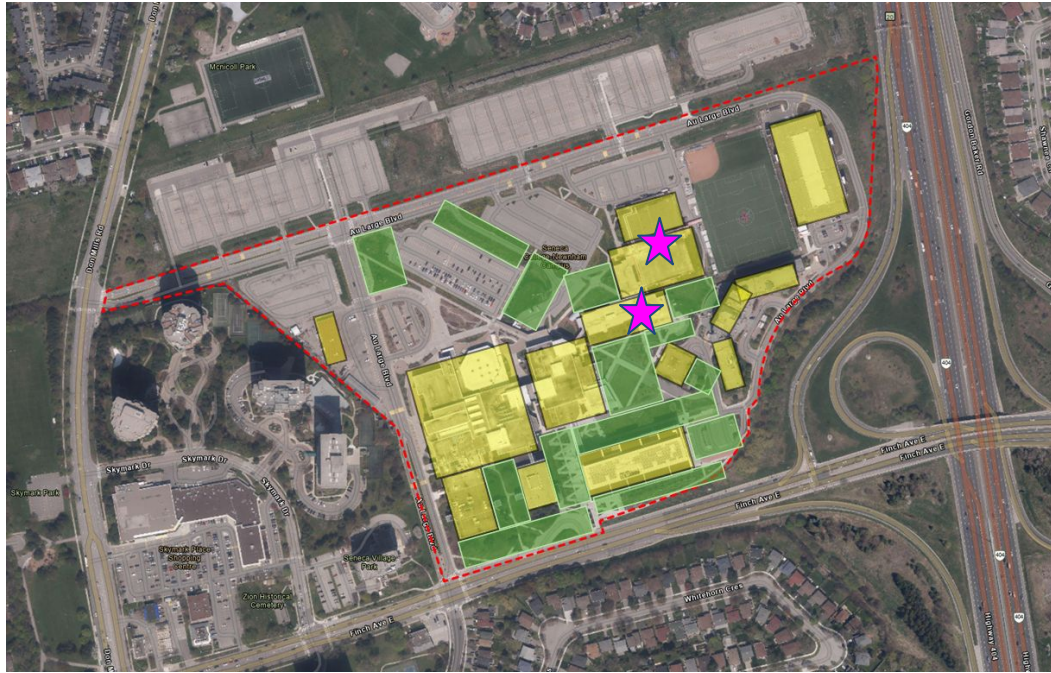

Seneca Newnham Campus

Urban Design and Landscape Design

Group 4:

Emily Beesley
Xiaochen Chen
Vivek Anand Khanna
Connor Mahoney
Veronika Mavliutova
Nayra Robleto Sanchez

Buildings & Park and Open Spaces

- 20.2 ha, institutional land use
- Dispersed buildings, setback from street
- Mostly 4-storey academic buildings
- Lawns, plazas, creek corridor

 Buildings  Park and Open Spaces  Demolished Buildings

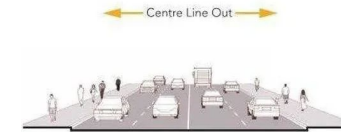

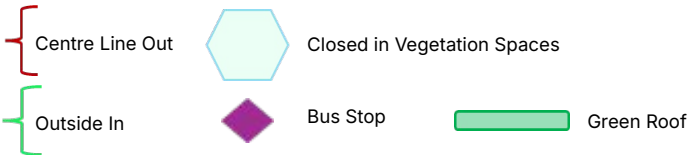

Streets

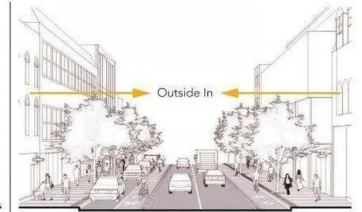

- Multiple main streets that are used for busy surface transit, however, lack of pedestrians
- There is an absence of bike lanes
- Streets prioritize getting through and around the campus, less focused on natural features

Landscape & Transportation routes

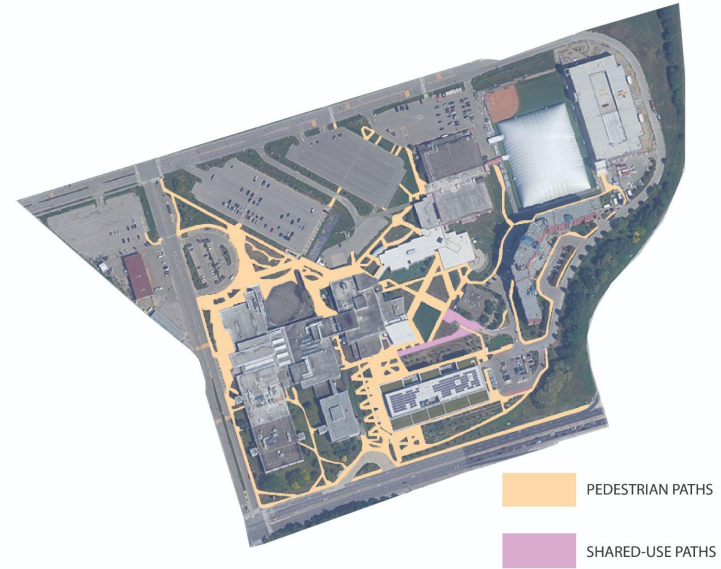

THEN
Auto-Mobility
Automobile Safety

NOW
Multi-modal Mobility + Access

SHARED-USE PATHS

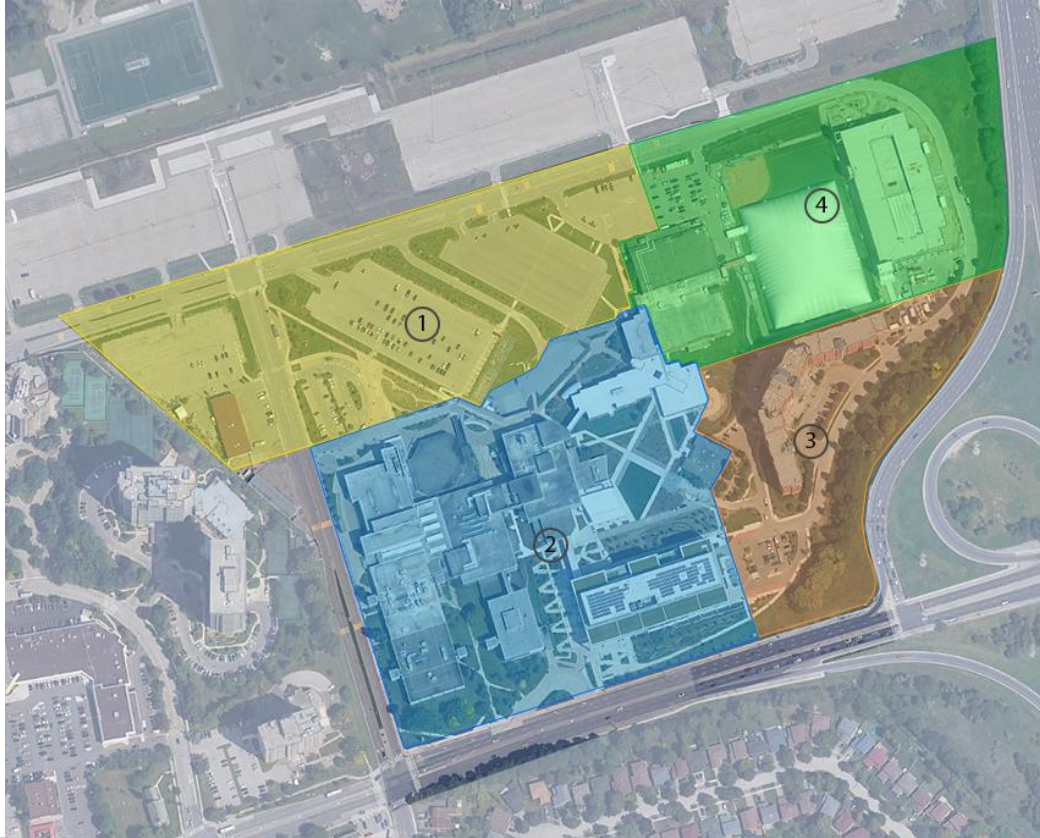

Kevin Lynch: **EDGES & NODES**

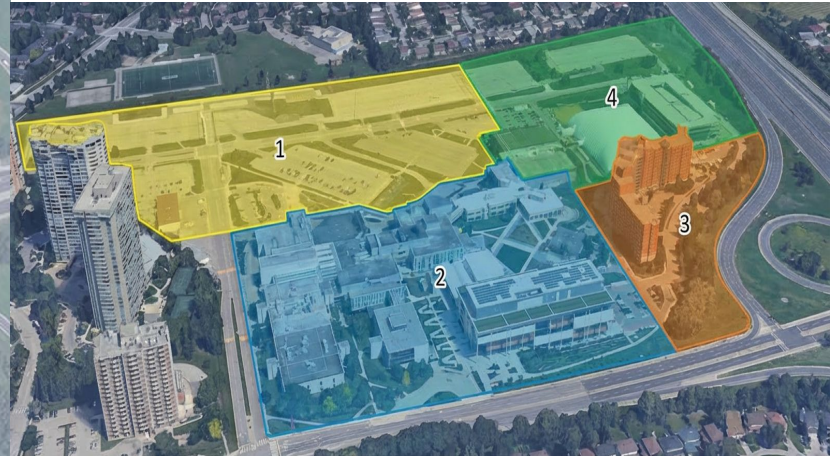

-  MAJOR NODE
-  MINOR NODE
-  SENECA SHUTTLE LOOP
-  TTC TRANSIT STOP
-  HARD EDGES
-  SOFT EDGES

Kevin Lynch: **DISTRICT**

- 1 PARKING AND SUPPORT
- 2 ACADEMIC
- 3 RESIDENCE
- 4 SPORTS

Kevin Lynch: **LANDMARKS**

STRENGTHS

Strong bus connectivity via TTC and Seneca shuttle services

Direct access from Highway 404

Large parking supply supports commuter population

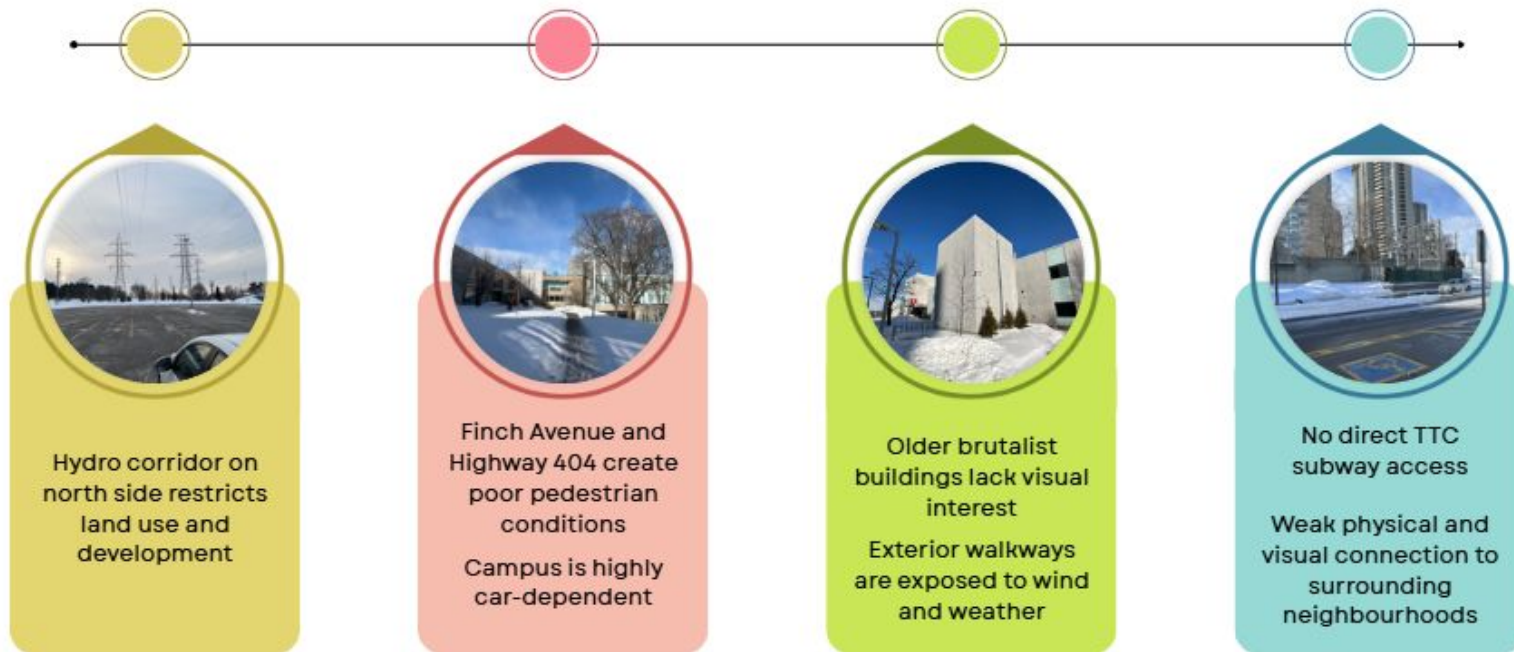

Fully interconnected academic buildings allow all-weather circulation

Interior courtyards provide quiet, protected green space

Newer buildings and public art enhance street-facing visual appeal

WEAKNESSES

OPPORTUNITIES

Surface parking lots can be
redeveloped or converted to
green space

Large street setbacks offer
potential for landscaping
improvements

Open spaces can support
public art and placemaking
initiatives

Remaining developable land
allows for campus intensification

Planned transit expansion in
Scarborough may reduce car
dependency

Anticipated growth and public
investment in Scarborough
support long-term
redevelopment

THREATS

Limited land availability for
future expansion
Adjacent land uses constrain
outward campus growth

Campus location discourages
pedestrian activity
Unsafe pedestrian conditions
along Finch Avenue

Low visual appeal of brutalist
architecture impacts campus
image

Aging surrounding population
may reduce local student
demand

Group Contribution Sheet

Name	Deliverable	Percentage
Connor Mahoney	SWOT - 2 Slides	16%
Nayra Robleto Sanchez	SWOT - 2 Slides	16%
